## **Environment Education:**

### GREEN DAY CELEBRATION

Green is the color of nature, balance and harmony which signifies growth, spring, renewal and rebirth so as the closure of Vanmahotsav Week, “Green Day” was celebrated on 6<sup>th</sup> July 2018 in an instructive way where the children learnt about the importance of green colour and the positive effects it has on their lives. Bubbling with enthusiasm in their amazing green costumes the little ones created a pleasant and refreshing aura. The campus buzzed with a series of activities.

### VAN MAHOTSAV WEEK CELEBRATION

As a part of the Van Mahotsav Week , various activities were conducted to celebrate the week . The pre-primary students participated with great enthusiasm in all the activities throughout the week. They were motivated to plant more trees in order to contribute to make the environment greener.

### Seed Ball Making Activity

“An innovative & economic way of growing plants ensuring their survival”. ‘Love Thy Nature’ this is the thought Shamit School instills in the children. To enhance this thought one such unique attempt was being made by Shamit School, Sakhla group and Radio Mirchi group. All of them joined hands to teach students to increase green cover and enlarge diversity of flora and fauna. A seed Ball making activity was carried out to ensure students contribution towards saving their natural resources. They were educated about how to safe guard trees and also understood the benefits of greenery and plants.

### SWACH BHARAT SWACH VIDYALAYA (Program by Grade IX Shamitians)

Cleanliness is an important aspect of our lives. Shamit School always believes in the concept of cleanliness and makes sure that students work towards the goal of keeping the school and its environment neat and clean. As a part of the Work Education activity this year our Grade IX students took the initiative to promote cleanliness by emulating the Swachh Vidyalay Abhiyan in our school. A special assembly was conducted by them wherein they discussed different aspects of cleanliness , especially with regard to sayings and teachings of Mahatma Gandhi, on cleanliness and hygiene.

### STREET PLAY ON WASTE MANAGEMENT

As a part of ISA – British Council project a street play was performed by the students of Grade 7 to 9 to create awareness about waste disposal among the students. Through the street play the students highlighted the proliferation of waste in our daily lives and how it can be managed by learning and spreading awareness about it. They depicted the importance of proper waste disposal as we know that proper waste disposal is critical sue to the fact that certain types of waste can be hazardous and can contaminate the environment if not handled properly.

### Educational Trip to Plastic Factory (Garbage Disposal)

Educational trips provide valuable educational opportunities away from the classroom, without using textbooks and other tools used in a normal school setting. One such educational trip was organized by Shamit School for Grades VII to IX to a plastic factory situated at Waluj, with a purpose to identify the most physical environmental problems related to waste management system and understand the things being manufactured and processed at work.

### AN EDUCATIONAL TRIP TO “DRY GARBAGE RECYCLING CENTER”

As garbage has been a problem faced in the city since a few months thus to identify the attributes of a good or clean environment and to understand the most physical environmental problems related to waste management system an Educational visit was organized by Shamit School to the Solid Waste Management Cell in Aurangabad. They were also enlightened with the 3 methods of composting i.e. regular composting, window composting and pit composting.

**Sports Achievements:** NA

**Innovations:**

- The School Students at Shamit School from Grade 1 to 4 enjoy 1 hour of Sports everyday and Grade 5 & 10 enjoy half hour of Sports every day.
- The School has a defined curriculum for all the co-scholastic subjects taught in the School like music, classical dance, western dance, arts and sports. The School conducts theory and practical exams for the same. This enhances the technical knowledge of all its students.
- The School has designed a detailed curriculum and result i.e. based on the conduct of curriculum, the School has derived a Chapter-wise result for all the Academic subjects. This gives a pin-pointed result for improvement in every student's performance.

**Overall Results:** The School's Overall result is 100%.

**PTA Activities:** The School's Executive PTA body looked into the academic progress of the students and suggested some measure to be taken for improvement. They also approved the 15% fees hike for the School.

**Important SMC Decisions:** SMC was presented with the learning and teaching techniques of the school and how it the school striving to achieve its goals. The SMC was satisfied with the progress made so far and appreciated the efforts taken by the School Management and team to shape a different kind of schooling.

**Number of Students:** The total student strength of the School for 2018-19 was 143.
